Pictures for lockets ~ 20.00

SHOE BOX SCANNING

Do you have hundreds of photos sitting in a shoe box wondering if they will ever be seen again? We now we have a solution... Shoe Box Scanning. The Photo Center's Shoe Box Scanning is designed to save you money, time, and effort while providing you with high quality scans of all of those unseen pictures. It's easy; just follow these 3 simple steps:

- 1) Sort your pictures by size and separate the verticals from the horizontals. Each group of pictures should be bundled together with a rubber band or placed into an envelope so that each group is same size and same direction (vertical or horizontal).
- 2) Make sure that the prints can have no glue, staples, or tape on them and that they are not damaged (torn, cut to odd sizes, cracked, etc.)
- 3) Bring them in and the rest is up to us!

Preparation: Prints must be no smaller than wallet size (2"x3") and no larger than 8x10. All photos must be removed from albums. Shoebox scans **cannot** be done from photos that are mounted, old Polaroid's, or photos that are sticky, torn, cracked or damaged in any way. These types of photos can be added to your order at an additional charge.

If you want the pictures in a specific order you must number each photo on the back in the upper corner.

We scan at 300 DPI at the original size. All files are jpeg and saved to CD or DVD.

Up to 100 prints	49.99 (.49 addl. print)
Up to 250 prints	99.99 (.39 addl. print)
Up to 500 prints	174.99 (.30 addl. print)

(Shoebox Scanning doesn't include the cost of the CD 6.00 or DVD 15.00)

Flatbed scans are used for pictures that not suitable for our shoebox scanning equipment. This includes pictures that are mounted or stiff backed, odd sizes or shapes such as ovals, cracked or damaged, or larger than 8x10. These pictures can be added to your shoe box order for an additional fee:

First Scan up to 8x10	5.00
Each Add'l. Scan up to 8x10	2.50
Each Scan LARGER than 8x10	25.00
